Height: 16 inches

Spread: 16 inches

Sunlight: ○ ◐

Hardiness Zone: 8a

Description:

Exceptional, freely branching shrub or subshrub with dramatically large rose-pink and purple star-shaped flowers; grown as an annual in cooler climates; great for indoor containers as well

Features & Attributes

Flamenco Tango Cuphea features dainty pink star-shaped flowers with white eyes and purple stripes along the branches from early summer to early fall. Its attractive glossy oval leaves emerge light green, turning green in color throughout the year.

This is a multi-stemmed evergreen houseplant with a mounded form. This plant may benefit from an occasional pruning to look its best.

Planting & Growing

When grown indoors, Flamenco Tango Cuphea can be expected to grow to be about 16 inches tall at maturity, with a spread of 16 inches. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. This houseplant will do well in a location that gets either direct or indirect sunlight, although it will usually require a more brightly-lit environment than what artificial indoor lighting alone can provide. It does best in average to evenly moist soil, but will not tolerate standing water. The surface of the soil shouldn't be allowed to dry out completely, and so you should expect to water this plant once and possibly even twice each week. Be aware that your particular watering schedule may vary depending on its location in the room, the pot size, plant size and other conditions; if in doubt, ask one of our experts in the store for advice. It is not particular as to soil pH, but grows best in rich soil. Contact the store for specific recommendations on pre-mixed potting soil for this plant.

There are many factors that will affect the ultimate height, spread and overall performance of a plant when grown indoors; among them, the size of the pot it's growing in, the amount of light it receives, watering frequency, the pruning regimen and repotting schedule. Use the information described here as a guideline only; individual performance can and will vary. Please contact the store to speak with one of our experts if you are interested in further details concerning recommendations on pot size, watering, pruning, repotting, etc.
